

Derek Harsch - Worship Arts Pastor - Good News Church

- Unite Night
 - With Unite Night we wanted a night of worship that combined not just our Sunday morning teams but our youth teams as well. It was going to be a night that we prayed for our city and our church. Unfortunately, we didn't get a chance to go ahead with the night as the weather had other plans. We are looking to reschedule and will let everyone know when we do.
- Hospitality
 - This past month we launched our new hospitality teams and couldn't be more excited to do so. We had training led by myself and our leaders and had great turnouts. 18 people showed up the first night and 16 people showed up the second night. Most everyone that were able to make it signed up to take part in our new hospitality team. We are still looking for volunteers and will continue to reach out to fill our teams. We currently need around 15 more people to run at full capacity. Pete Jenkins and Mary Dreier have really been incredible. We defiantly would be where we are without them.
- Youth Worship
 - January and February have been incredible months for our youth worship teams. Good Grace and Uncontainable Love are the 2 new songs that have taking our youth by storm. We would love for you to stop by on a wed night and take a listen!
- Worship Team
 - Since we have gotten the approval to purchase our new mics, Merlin and I have been working hard to install the new systems. 8 systems were installed including 6 handheld and 2 pastor mics. Everything is fully installed and ready to use. If you have a moment on Sunday stop by and see our new additions.
- Tech Team Help
 - This past week I was informed by Merlin that He will be moving to pipestone. Merlin has been a close and dear friend as he has taught me many things about not only our sound board but Good News Church. He has gone far above the normal volunteer and has devoted himself to Good News for many many years. Though we are sad to see him go we are excited for his future in Pipestone.
 - With Merlin leaving this will hurt our tech team ever more as we are already lost Clayton, Mark & Jeremy in 2018. Losing Merlin will be tough. Please continue to pray that we will see people step up and join our tech team.
